

Air Blower Backpack LBP 350

216808

The Backpack Air Blower LBP 350 is a gasoline driven backpack air blower suitable for inflating light and heavy inflatable oil containment booms.

The LBP 350 is a light weight air blower that is ergonomically designed for increased versatility and mobility during operation. The LBP 350 blower has a two-stroke gasoline X-Torq 50cc engine that conforms to the ISO 3744 noise level with a rating of 94 dB. The X-Torq engine provides increased power with reduced fuel consumption and emissions. The blower delivers high air speed and air flow with a maximum speed of 6500 rpm.

The ergonomic harness is ventilated and load-reducing with a hip belt and shoulder strap.

Technical Specifications:

Length	320 mm	13 in
Width	460 mm	18 in
Height	440 mm	17 in
Weight	10 kg	22 lbs
Air flow	840 m ³ /h	3700 gpm
Air pressure	0.05 bar	0.75 psi
Fuel tank	1.25 l	0.3 gal
Hydraulic pressure	150 bar	2175 psi
Power	1.6 kW	2.1 hp

Benefits:

- Light weight air blower
- Ergonomically designed
- Increased power with reduced fuel
- Conforms to ISO 3744 noise level at 94 dB
- Low maintenance
