

Hose Float Solid type for 2" hoses SHF 2 - 226156

Lamor utilizes an exclusive molding process to manufacture high quality hose float assemblies.

The process extrudes closed cell polyethylene foam which is then compressed and heated to form a solid skin over the entire float surface enhancing toughness, abrasion resistance, and ease of cleaning.

Ultra-violet and oxidation inhibitors are incorporated into the foam for durability and extended life.

Two (2) Stainless Steel Straps are provided to secure the floats to the selected hose.

Hose floats available also for 1 1/2", 3", 4" and 5" hoses.

Specifications in US standard: Varies depending upon size selected

Inside Diameter 2.50"
 Outside Diameter 6.38"
 Length (average) 13.25"
 Volume (cubic inches) 358
 Wt./Set Foam (lbs) 2.61
 Wt./Set Clamps (lbs) 0.21
 Total Buoyancy (lbs) 12.90
 Total Weight (lbs) 2.80
 Net Buoyancy (lbs) 10.10

TECHNICAL SPECIFICATIONS

Inner diameter	63,5	mm
Outer diameter	162	mm
Length	337	mm
Weight	1,3	kg
Net buoyancy	4,6	kg
