

Hose Float Solid type for 3" hoses SHF 3 - 226157

Lamor utilizes an exclusive molding process to manufacture high quality hose float assemblies.

The closed cell polyethylene foam is selectively densified to a solid skin over the entire float surface to enhance toughness, abrasion resistance, and ease of cleaning.

Ultra-violet and oxidation inhibitors are incorporated into the foam for durability and extended life.

Two (2) Stainless Steel Straps are provided to secure the floats to the selected hose.

Hose floats available also for 1 1/2", 2", 4" and 5" hoses.

Specification in US standard:

Inside Diameter 3.50"
 Outside Diameter 6.38"
 Length (average) 13.25"
 Volume (cubic inches) 296
 Wt./Set Foam (lbs) 2.26
 Wt./Set Clamps (lbs) 0.21
 Total Buoyancy (lbs) 10.60
 Total Weight (lbs) 2.50
 Net Buoyancy (lbs) 8.10

TECHNICAL SPECIFICATIONS

Inner diameter	89	mm
Outer diameter	162	mm
Length	337	mm
Weight	1,1	kg
Net buoyancy	3.7	kg
